Introduction

Grammar is a very old field of study. Did you know that the sentence was first divided into subject and verb by Plato, the famed philosopher from ancient Greece? That was about 2,400 years ago! Ever since then, students all over the world have found it worthwhile to study the structure of words and sentences. Why? Because skill in speaking and writing is the hallmark of all educated people.

Lesson by lesson, this book provides basic instruction in the eight parts of speech—nouns, pronouns, verbs, adjectives, adverbs, prepositions, conjunctions, and interjections—as well as the standard patterns of English sentences.

All students of English, be they native speakers or those who are studying English as a second language, will profit from the fundamental introduction and review of grammar provided by SADDLEBACK'S BASIC ENGLISH GRAMMAR 1 and 2. Helpful marginal notes throughout the books have been provided to reinforce existing skills and call attention to common problem areas.

We wish you every success in your pursuit of English proficiency.

What is Grammar?

Here's an old children's rhyme about the eight parts of speech of English grammar. It gives you an idea of what grammar is about. Read and remember it.

Noun

Every name is called a **noun**,
As *field* and *fountain*, *street* and *town*.

In place of noun the **pronoun** stands,
As *he* and *she* can clap their hands.

Pronoun

Adjective

The **adjective** describes a thing,
As *magic* wand or *bridal* ring.

Most **verbs** mean action, something done,
To *read* and *write*, to *jump* and *run*.

Verb

How things are done the **adverbs** tell,

As *quickly*, *slowly*, *badly*, *well*.

The **preposition** shows relation,
As *in* the street or *at* the station.

Preposition

Conjunctions join, in many ways,

Sentences, words, *or* phrase *and* phrase.

Conjunction

The **interjection** cries out, "*Heed!*"

An exclamation point must
follow me!"

Interjection
